ALUMINIUM SLIDING DOORS AND BIFOLDING DOORS

## ENHANCING MODERN LIVING WITH **SLIDING AND BIFOLDING DOORS**

Sliding and bifolding doors are innovative and stylish solutions that transform the way we connect our indoor and outdoor spaces. Sliding doors offer a smooth, space-saving design, allowing for easy access and uninterrupted views, while bifolding doors open up completely, creating a seamless flow between the inside and outside of your home.

Both options are ideal for contemporary and traditional homes, providing versatility, natural light, and enhanced functionality. Whether you are looking to maximise space, improve energy efficiency, or enhance the aesthetic appeal of your home, sliding and bifolding doors are an excellent choice, combining style with practicality for a contemporary living experience.

# ALUMINIUM INLINE SLIDING DOORS

Slim 35mm interlock sightline

#### ULTRA LOW U-VALUES

A double glazed Inline Sliding Door has a U-Value of just 1.4 W/m<sup>2</sup>K, and will reduce your energy bills for generations to come!
