THE ART OF PERFECTION

S-200 SERIES

WELCOME TO SPITFIRE DOORS **THE WORLD'S MOST EXCLUSIVE** COLLECTION OF LUXURY ALUMINIUM RESIDENTIAL ENTRANCE DOORS.

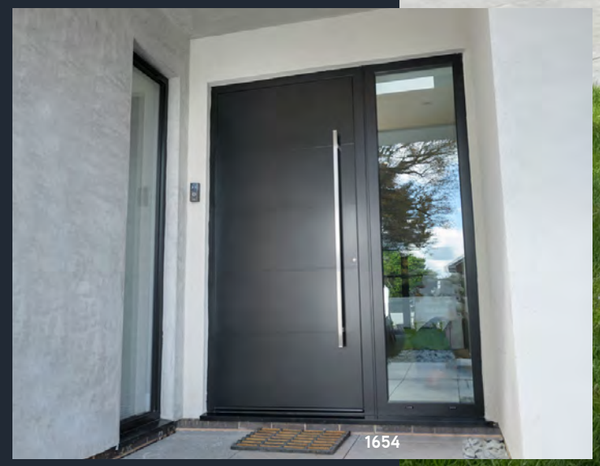

Our doors are works of art, hand-made exclusively for you by our team of highly skilled designers and craftspeople.

Our unique door collections exhibit an extraordinary investment in time, passion and craftmanship. Our in-house designers are inspired by the potential they see in combining exclusive materials with simplistic engineering precision. Their intuitive creativity is manifested not only by their superb attention to detail but also by producing technically outstanding doors, that we guarantee will excel in all weather conditions, day after day, for decades.

In constructing World Class Aluminium entrance doors, our designers push the boundaries of what is possible and through their unbridled innovation we continue to challenge established protocols, whilst respecting the craft of our gifted assembly technicians.

THE ART OF PERFECTION

1654

"Design is not just what it looks like and feels like. Design is how it works".
- Steve Jobs, co-founder of Apple, Inc.

"We carefully researched the market and concluded that it had to be a Spitfire Door. We are really delighted with our perfect door".
Dave in Derbyshire

DESIGN OPTIONS

Current trends are easily accommodated since our beautiful S-200 Series aluminium doors can be made on an imposing scale, up to 1150mm in width and an impressive 2400mm in height, plus toplights and sidelights!

In fact, with such an enormous range to choose from, including doors with sidelights, toplights, double doors and French doors, there's a Spitfire S-200 Series door to suit every kind of property, whatever your personal style and taste in décor.

S-200 RAPID RANGE

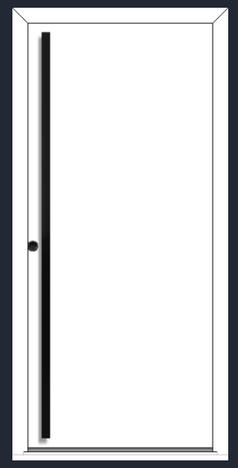

GOOD NEWS — YOUR DOOR COULD BE READY SOONER.

Choosing a faster option does not mean compromising on quality. The S-200 Rapid Range is part of our established S-200 Series, manufactured to the same high standards and designed to meet PAS 24 security requirements.

With popular designs, six colour combinations and six selected doors available in as little as four weeks, the S-200 Rapid Range makes it easier to choose a high-quality aluminium entrance door without waiting weeks for your ideal style.

Combining dependable performance, proven security and a streamlined choice of options, it is a faster way to give your home a stylish, secure and high-quality entrance door.

S-200 ALUMINIUM ENTRANCE DOORS
SECURE AND THERMALLY EFFICIENT

ULTRA LOW U-VALUES
50% more thermally efficient, thanks to three weather seals, triple glazing and a fully insulated door slab and frame. A standard S-200 door has a U-Value of just **0.9 W/m²K**, and will reduce your energy bills for generations to come!

SUPERIOR ALUMINIUM BUILD QUALITY
Aluminium doors are built to last, making them the number 1 choice in Europe. They will never warp, twist or bow. Our single-piece-construction door slabs are a whopping **78.5mm thick – 75% thicker** than a traditional front door.

MARINE GRADE PAINT & HARDWARE
Our aluminium components are pre-treated and powder coated, which protects them from corrosion in any environment. In coastal applications, we recommend a textured paint finish as this is even more durable. When it comes to maintenance, all that is needed is a regular wipe clean with warm soapy water.

XL DOOR SIZES - 1150MM X 2400MM
Our doors can be manufactured from 700mm up to 1150mm wide and up to 2400mm tall. Every door is equipped with a fully weathered **low aluminium threshold,** to provide ease of access for everyone in your home.

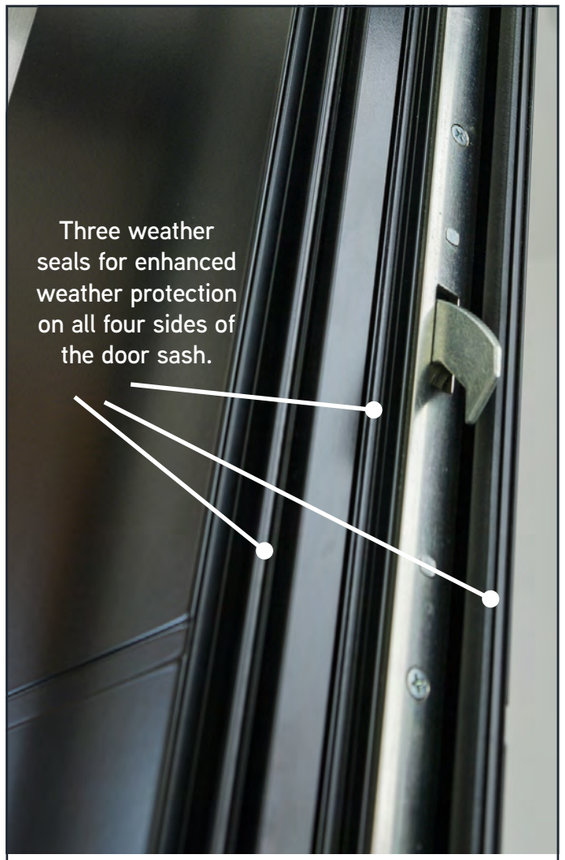

LOCKING **SYSTEMS**

Auto

GRETSCH-UNITAS

GU AUTOMATIC 5 POINT SLAMSHUT LOCK
Always locked, always secure – a slamshut lock offers full peace of mind. The moment your door is closed, the four spring-loaded locking bolts, plus the central latch shoot into place. The door can be opened internally simply by depressing the lever handle. From the outside, entrance is gained with one full spin of the key.

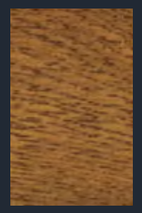

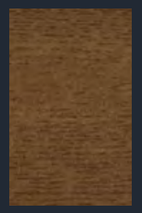

The Slamshut lock is available when you choose a Pullbar handle externally.

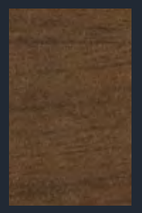

If you would prefer a Lever Handle externally, your door will remain unlocked until the key is turned.
